**Attachments:** Response to MDE comments\_MSGP.docx

Paul,  
As we discussed yesterday, attached is EPA's response to MDE's comment document that was provided in response to our latest set of comments. We recommend that a time be set up in the near future for us to go through the doc and try to come to concurrence on the items in the permit and appendices. We are still reviewing the revised fact sheet at this time.

As always, do not hesitate to contact me if you have any further questions.

Thanks,  
Liz
